European University

European University (EU) is one of the world's top business schools recognized for the excellence of its students and faculty. EU is accredited by ACBSP (Association of Collegiate Business Schools and Programs), a CHEA-recognized accrediting body.

Established in 1973, our university has grown into one of the world's leading business schools recognized for the academic excellence of its faculty and student body and for the professional success of its alumni. This results in a high-quality education based on a unique combination of the American and European curricula. In order to meet the needs of the globalizing business society, EU has developed a broad network of campuses in various locations worldwide. In addition, our standardized campus-to-campus educational curriculum encourages students to participate in intercampus exchanges in the following countries: Spain, Switzerland, Germany, UK, Austria, Turkey, Syria, Kazakhstan, Singapore, Malaysia, China and Taiwan.

EU offers Bachelor and Master of Business Administration (BBA & MBA) programs with the possibility to specialize in different fields of management education, for example: Business Administration, Communication & Public Relations, Global Banking & Finance, International Marketing, Leisure & Tourism Management, Entrepreneurship, E-Business, Sports Management and Human Resources Management.

EU offers education that is student-oriented, flexible and personal. All courses are taught by highly-qualified and experienced faculty members from a number of international backgrounds. At EU, faculty works with students on an individual basis to create a cooperative and caring learning environment where human values flourish. Our university's pragmatic approach to business education along with its emphasis on case studies to resolve real world business issues is proven to effectively prepare students for leadership positions in business and industry.
