### **EU CAREERS FAIR BRINGS STUDENTS AND COMPANIES TOGETHER**

On Friday, February 26, the EU Careers Services Department held their annual Careers Fair at the Hotel Fairmont Rey Juan Carlos I. The event proved to be an overall success with several companies already contacting candidates for follow-up interviews and offers. Organized by Head of Business Development, Anna Wlodek and Careers Advisor Rosita Cordasco; EU welcomed a number of companies from diverse sectors that included: **Accenture, Bloomberg, Danone, Hotel Arts, Hotel Fairmont Rey Juan Carlos I, HotelW Barcelona, Loftus Bradford, Hotel Mandarin Oriental Barcelona, PTC, SELLBYTEL, Transperfect, TravelClick, Talent Search People**; as well as universities such as **The University of Amsterdam, The University of California at Riverside, and IE Business School**. Guest speakers from companies such as; **Edelman, Dorna, Henkel, Itnig, Loftus Bradford, and The Passion Generation** gave presentations that provided students with an in-depth look at company practices while also opening up new avenues of thinking.

The EU Careers Fair is an event that gives students the opportunity to meet face to face with professionals actively recruiting interns and employees. By connecting students and potential employers, the Careers Fair helps students make the contacts necessary to create networks and achieve their career ambitions. The event also plays an important role in preparing EU students for the working world while assisting companies in finding new talent.

This year, students participated in company presentations followed by coffee networking sessions in the late morning. Throughout the day companies and recruitment consultancy firms were on the lookout for gifted, international profiles held one-on-one interviews. It was an invaluable opportunity for students to build confidence and refine their interview skills early on in their careers, for smaller companies to get exposure and for international businesses to have access to a fresh and varied talent pool.
