EU'S ONLINE MBA RANKED 14th IN THE WORLD BY QS TOP MBA

EU Business School (EU) is thrilled to announce that our Online MBA program has been ranked 14th in the world in the QS Distance/Online MBA Ranking 2017, scoring 96/100 for student quality and 100/100 for student diversity.

QS, the leading provider of world university rankings, have today released the fifth edition of their annual QS Distance/Online MBA Ranking. The table ranks the world's top 40 programs and is a valuable resource for the ever-increasing number of students undertaking an online MBA.

The QS Distance/Online MBA Ranking 2017 is based on the combined findings of an in-depth questionnaire submitted by international business schools about their online MBA programs, in addition to another survey completed by international employers who hire MBA graduates. The results of both surveys are then used to produce the final score which ranks the competing online MBA programs.

All distance and online courses are judged on several categories: employability, student quality, establishment in the online MBA market, faculty and teaching, class experience and diversity. Statistics such as the degree completion rate, the average years of work experience among students, the average GMAT score and the number of nationalities enrolled in the program are also taken into consideration when formulating the overall score used to rank the programs.

EU's impressive ranking is a testament to our consistent dedication to excellence and innovation, offering tomorrow's leaders a cutting-edge educational experience both online and on campus.
