Visas

Before coming to Barcelona, it is essential to find out whether you need a visa to enter, travel and study in Spain. There are many requirements to fulfill in order to receive a visa and, depending on your country of origin, it may take up to three months. Therefore, it is important to start early and allow enough time for the consulate or embassy to process your request. The visa must be issued in your home country and is only valid for 90 days.

You will not need a visa if you are:
• A citizen of the European Union in possession of a valid European Union identification card or passport
• Staying in Spain for three months or less

If the above criteria do not apply, you will need a visa before arriving in Spain. You must apply at the Spanish embassy or consulate general in your home country or country of residence, as the visa will be affixed to your passport before you depart. This must be presented to immigration officials upon your entry into Spain. Within 30 days of arrival, all international students must register as residents and apply for either the Número de Identidad de Extranjero (NIE) or Tarjeta de Identidad de Extranjero (TIE).

We strongly recommend that you complete all documents necessary for the application process as soon as possible. Spanish translations of all documents are also required.

Required documents:
• Completed visa application forms
• Four passport-size photos (stapled onto each copy of the application)
• Medical certificate issued within the last three months
• Final acceptance documents from EU Business School Barcelona and photocopies
• Proof of health insurance
• Passport valid for six months before the date of application and photocopies

• Background check issued within the last three months
• Proof that you have sufficient funds to support yourself while living in Spain
• Proof of accommodation in Barcelona

Please bear in mind that the visa requirements may change. Therefore, we recommend that you contact your local Spanish embassy or consulate general to ensure that the requirements are up to date.

Please note:
Each visa application is reviewed individually, therefore the necessary documents may vary. The embassy reserves the right to ask for additional documents at any time. The submission of the above documents does not guarantee the issuance of a visa. Submission of an incomplete set of documents will lead to a refusal of your visa application. Once a visa has been issued, the purpose of the trip may not be altered. Please note that there is no such thing as an urgent or express visa.

Registering as a resident (all students):
Every student wishing to pursue studies in Barcelona (both European Union and non-European Union students) MUST register as a resident in the city. The process is called empadronamiento and you can register at your nearest city hall. Once registered, EU citizens need to apply for the NIE and non-European Union citizens must apply for the TIE by booking an appointment at the Comisaría General de Extranjería y Fronteras. Please visit the student services office on campus to register for an appointment. Here you will receive detailed information about the process while double checking that you have correctly filled out the paperwork.

Mostly Bs: private apartments
Mostly Cs: apartment-sharing
Student dorms
Living in student dorms allows you to meet new people and gives you a structured living environment without having to worry about household chores and the stress of dealing with rental agencies. Living close to other students helps you adapt to the city and your new lifestyle. This type of accommodation is welcoming and ensures you always have someone to talk to.

EU Barcelona has partnerships with 12 student residences in various parts of the city. The dorms are located in different districts, ranging from a five-minute walk from EU Barcelona to 30 minutes via public transport. Aside from this, there are also many privately run student dorms in Barcelona that offer exceptional service.

If you are planning to arrive at the beginning of the fall semester (October), we recommend that you send your accommodation application to a wide range of residences five months before starting. Apply for a place in our partner residences immediately after enrollment by contacting our accommodation officer. Placements are limited.

Private apartments
Having your own apartment will appeal to you if you enjoy the quiet, like to be alone and don’t want to compromise on personal space. You can choose to get an apartment anywhere in the city without limiting yourself to student dorm availability or location. This type of accommodation is ideal for independent people.

Most apartments are rented through an agency. However, renting directly from the owner generally saves tenants a lot of money in agency fees, which are usually one month’s rent in addition to other deposits and commissions. You can contact rental agencies directly or visit websites which post availabilities such as idealista.com or enalquiler.com, among many others.

Apartment-sharing
Sharing an apartment is a popular option in Spain and a lot cheaper than living on your own. Shared housing is a flexible option and, with international roommates, you will be able to learn other languages. But you must be willing to compromise.

For more information about housing, email our accommodation officer at: admissionsservices.bcn@euruni.edu

Planning your budget
Barcelona is not an expensive city, but you need to have an idea of what you are able to spend on rent, travel and leisure. You should plan for a living expenditure of at least €1,000 per month. Shared accommodation is around €400 per month while living alone starts from €700 per month. The remainder will be for basic necessities and leisure.
