EU Business School

Online International Summer School

July 19, 2021

Overview

Students will attend a two-week Online International Summer School program and acquire skills in entrepreneurship and management if they are unable to travel to Barcelona or if it is not possible to deliver the program on campus due to the global health situation.

This dynamic and engaging online program will develop entrepreneurship skills and give students a taste of international business education.

This program comprises 20 hours of immersive, interactive live online sessions which are complemented with 10 to 20 hours of coursework. The program culminates in the startup business plan where students can use their course learnings to propose solutions to real-world business scenarios.

Upon successful completion of the coursework, students will be awarded an EU certificate of completion.

What You Need to Know
